DETAILED ACTION

Amendment received on September 21, 2005 has been acknowledged.

Allowable Subject Matter

1. Claims 31-36 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Ackerman teaches an electronic pricing system having labels including a case, a liquid crystal type display, and a light emitting diode. Ackerman also teaches that the messages from computer through data wire to processor may contain price information such as the price of goods, price per unit of goods, etc. Upon receiving such messages in RAM, the program therein extracts the price information, stores it in EEPROM, and provides it to LCD driver. This driver displays the price or other information on the LCD.

Hockaday shows a fuel cell to power a portable electric device.

However, Ackerman and Hockaday either taken alone or in combination fails to teach an electronic shelf label having a fuel cell powering that includes fuel tank filling generally the volume of the housing not occupied by the display and the data communicator.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
